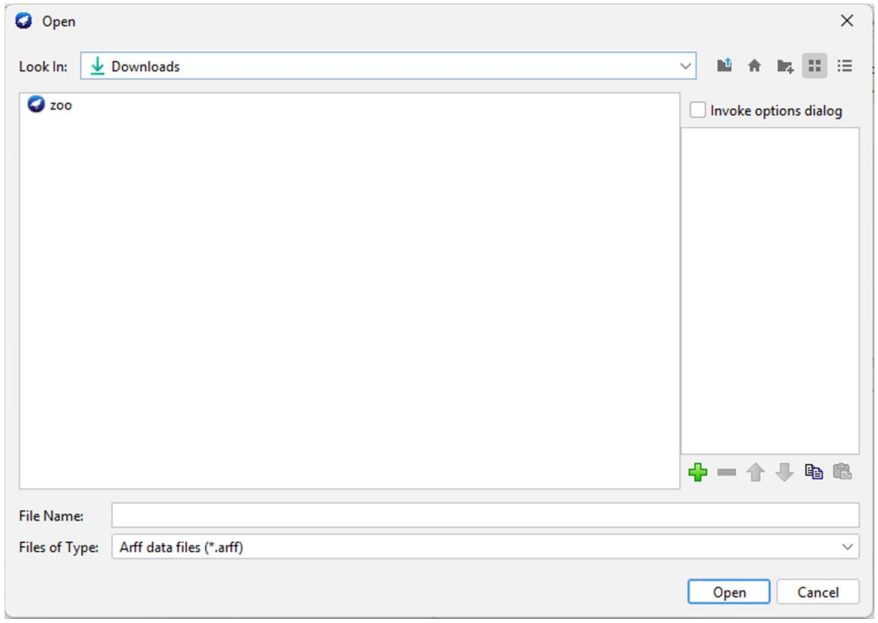
WEEK-8

Demonstration of Classification algorithm using Bayesian approach.

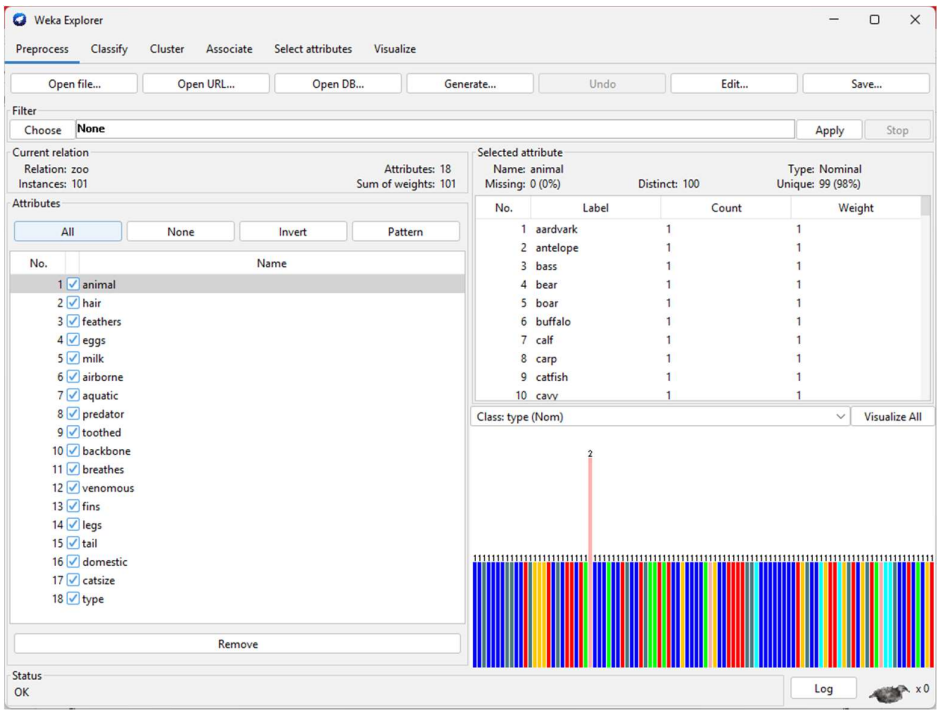
Step 1: Link to zoo.arff dataset (https://github.com/renatopp/arff-datasets/blob/master/classification/zoo.arff)

Procedure for applying Bayesian approach for zoo.arff

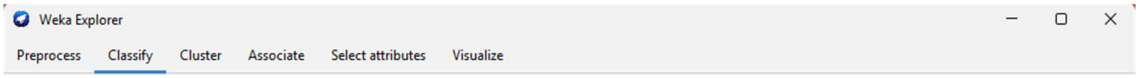
Step 1: Load the **zoo.arff** data file



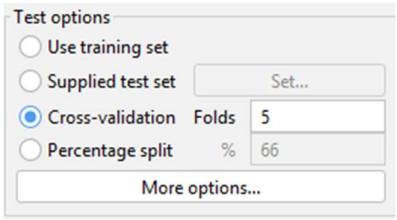
Step 2: Select all the attributes



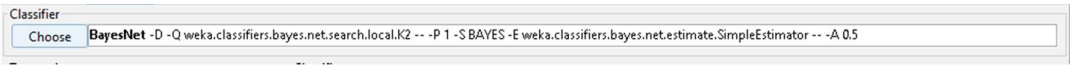
Step 3: Go to classify tab



Under the test options, change the **folds to 5**



Then click on choose, under the classifier, and select **BayesNet**



Click on the start. **(Output for 5-fold)**

Classifier output

```
Correctly Classified Instances          94               93.0693 %
Incorrectly Classified Instances         7                6.9307 %
Kappa statistic                          0.9089
Mean absolute error                      0.02
Root mean squared error                  0.1105
Relative absolute error                  9.1047 %
Root relative squared error             33.5013 %
Total Number of Instances              101

=== Detailed Accuracy By Class ===
